

Modern Billing for SaaS Companies

Increase CLTV While Decreasing Operational Costs With Billing Automation

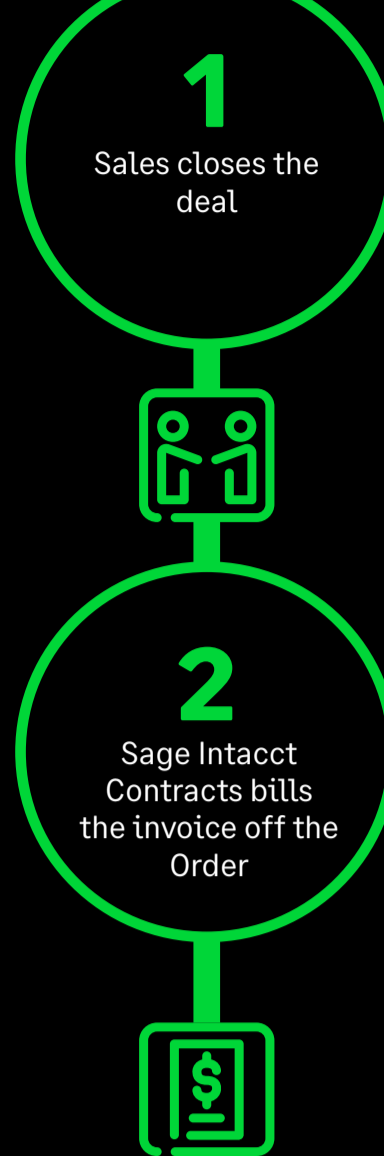

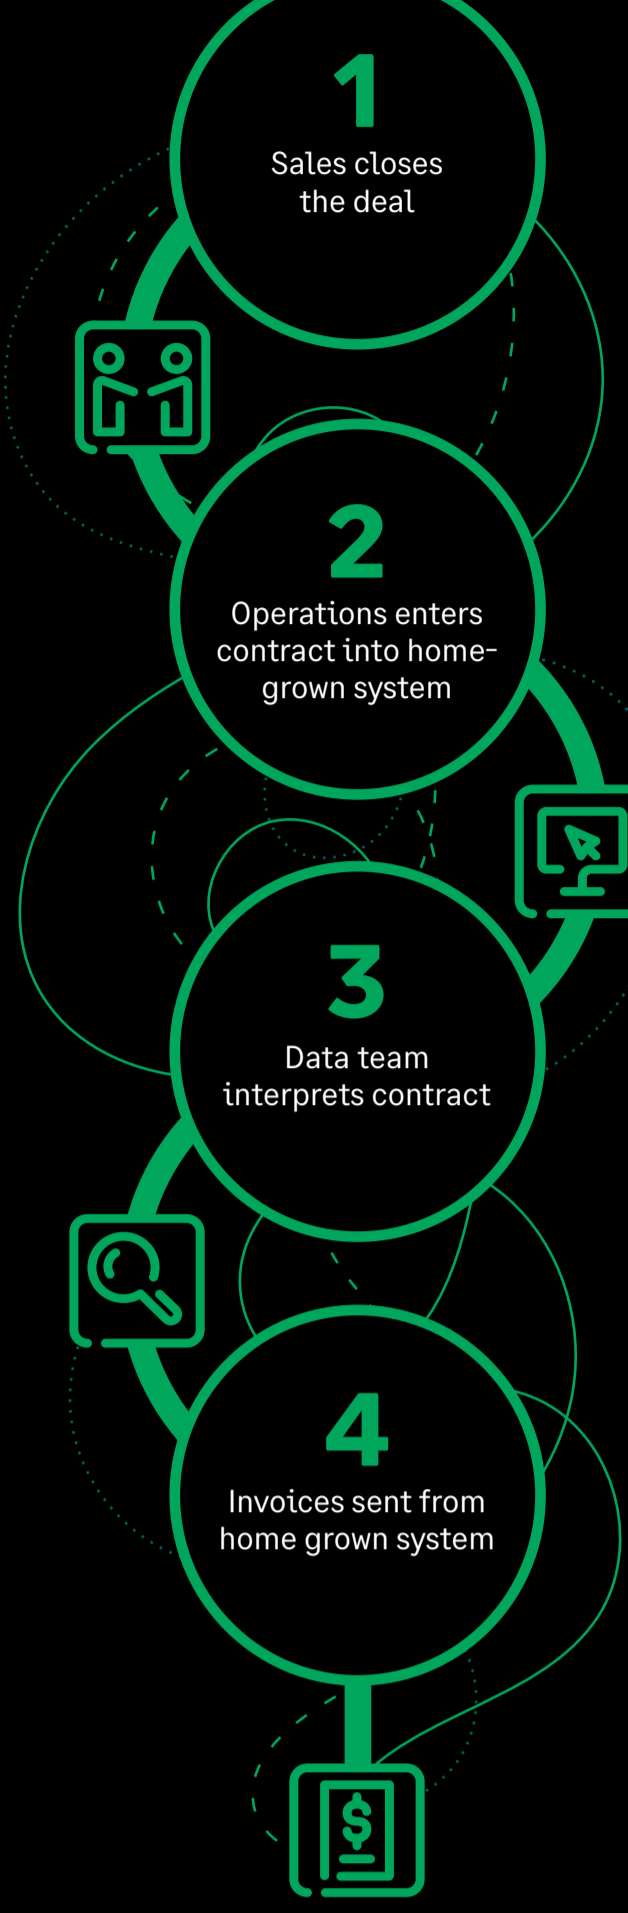

Automating the billing creation process

The old inefficient way

VS.

The NEW automated process

SaaS Billing Automation Benefits

- Eliminate error-prone manual contract data entry
- Reduce process complexity and save time
- Deliver on Finance and Business Development requirements
- Ensure compliance with current and new accounting guidelines
- Increase CLTV and enable greater scale

Automating the monthly billing process

BEFORE AUTOMATION

80 hours per month doubled to

160

hours per month

AFTER AUTOMATION

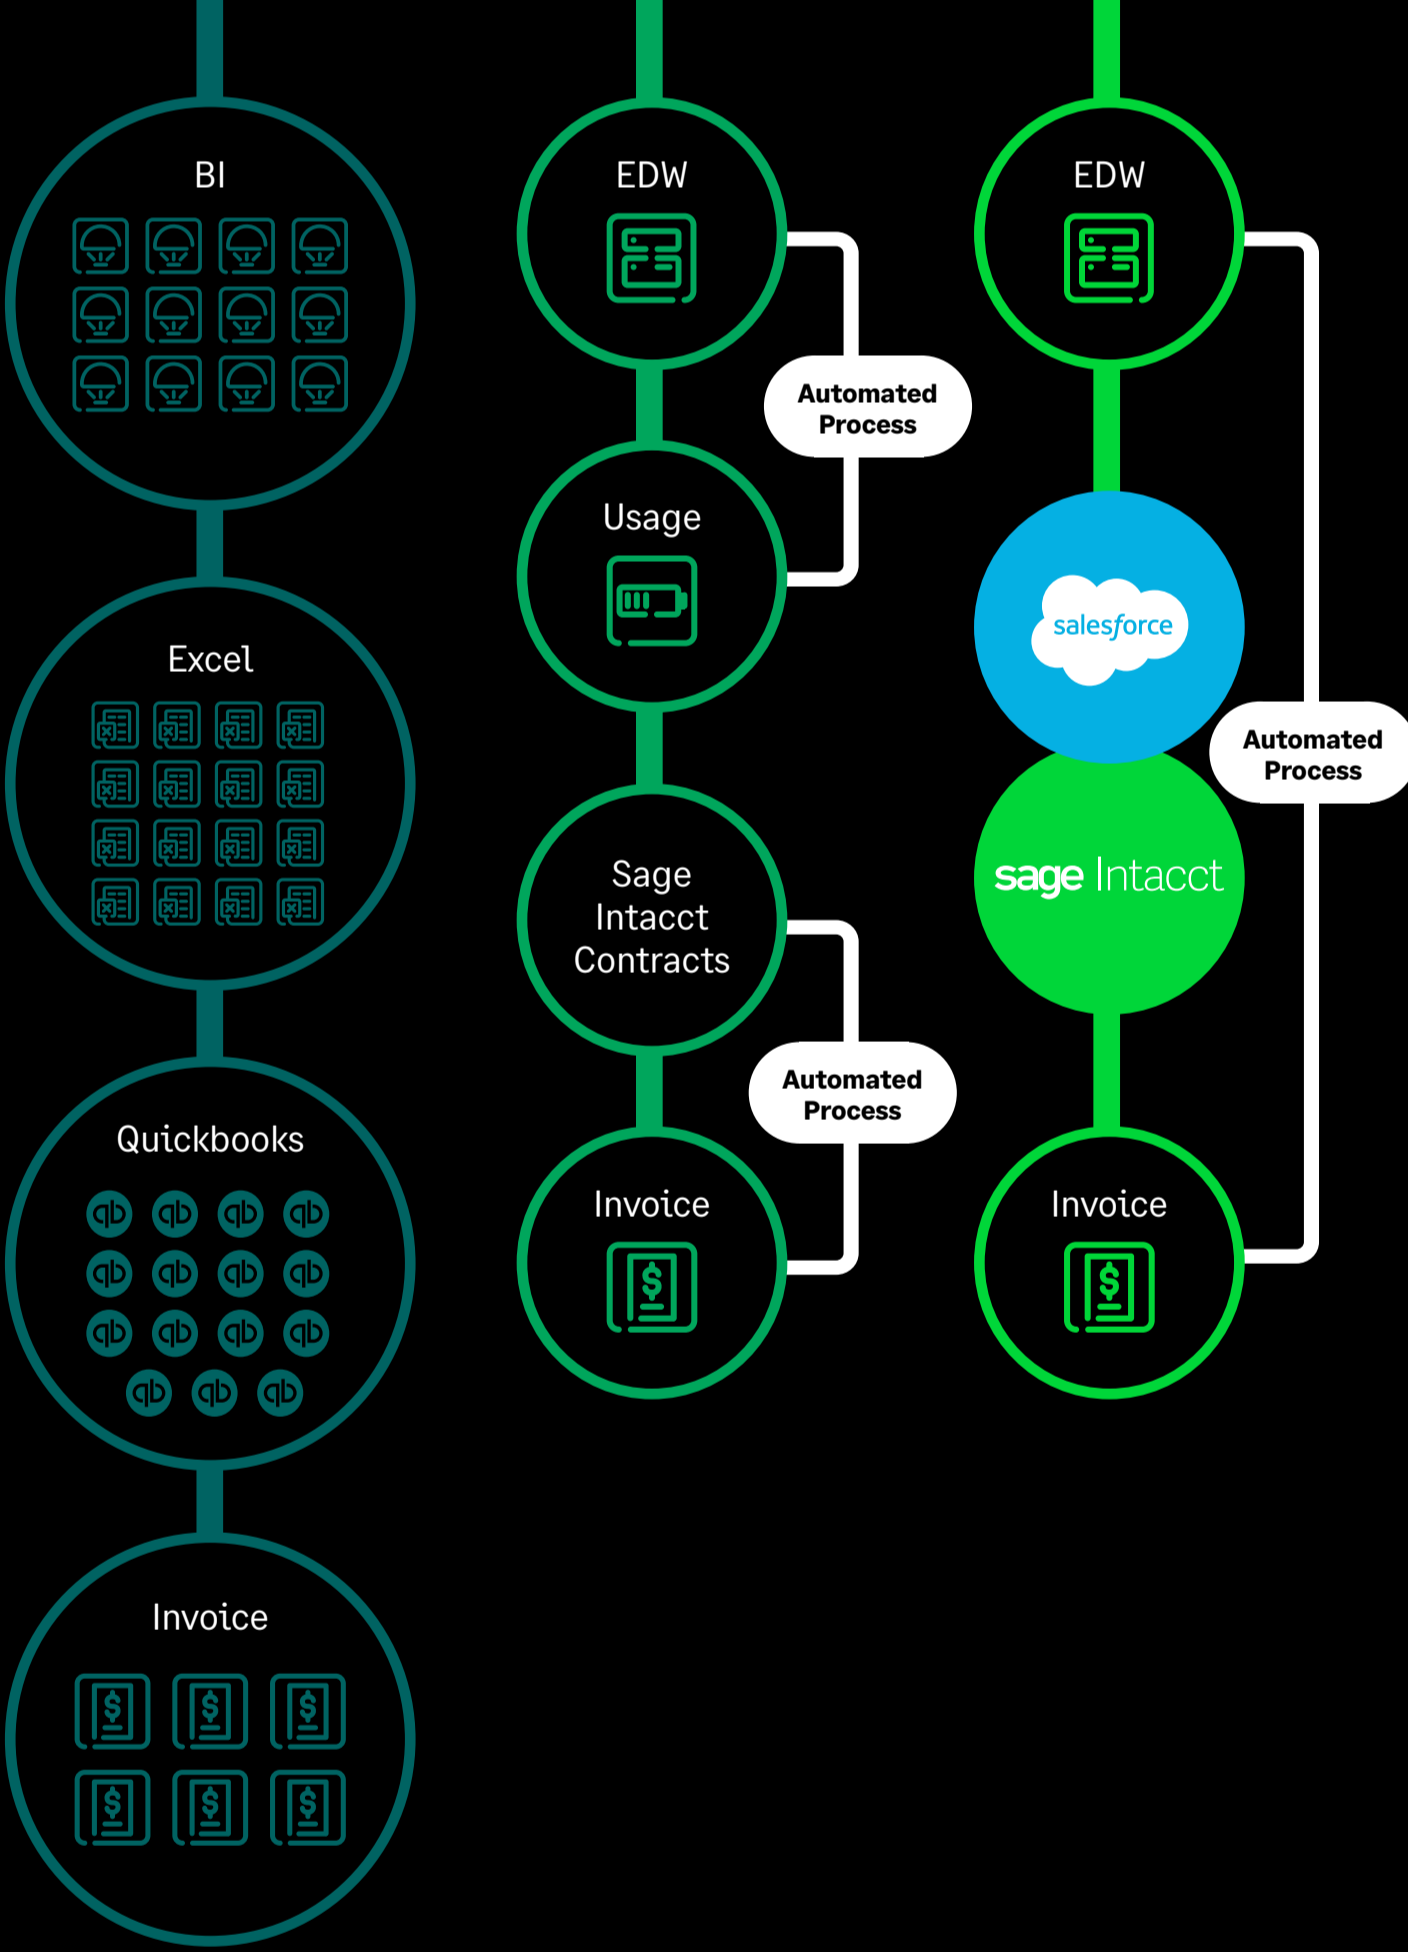

20

hours per month

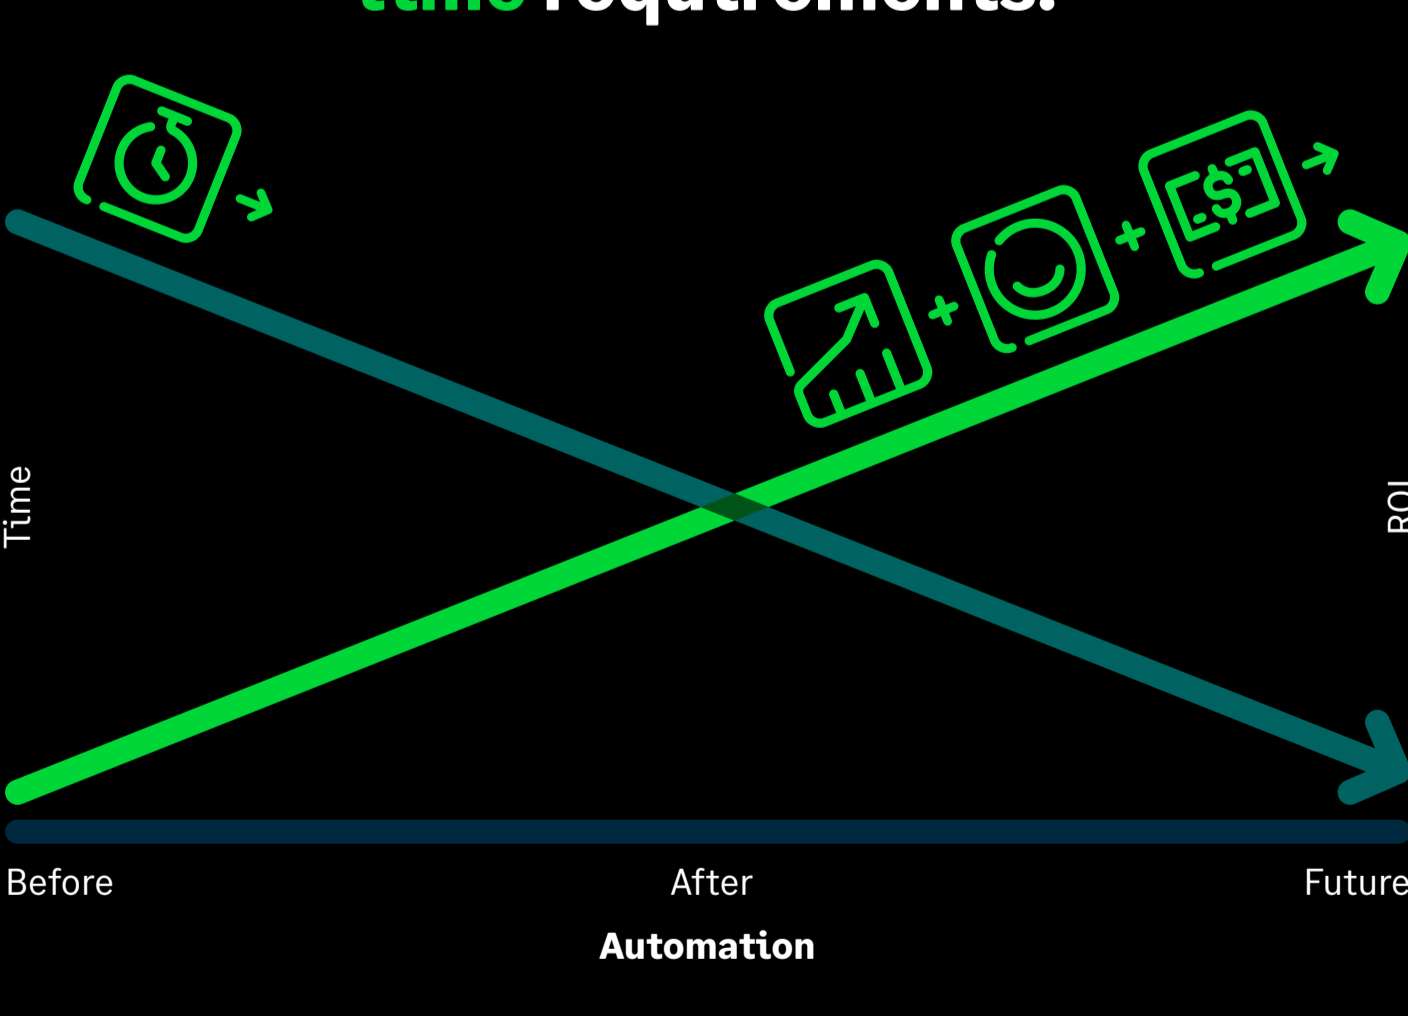

FUTURE AUTOMATION

5

hours per month

Automation increases **scale**, **CLTV**, and **profitability** while driving down **time** requirements.

One revenue lifecycle through automation, control, and integration

Don't get left behind. Sage Intacct delivers:
