# Sage Intacct Multi-Tax

Simplify tax compliance for your  
global organization

For organizations that have operations around the world, compliance with tax legislation across all their entities is critical. Sage Intacct Multi-Tax simplifies compliance across 4 continents, while delivering a flexible tax engine to maintain compliance with the requirements of other local tax authorities. Easily calculate taxes, accurately report, file, and audit, and comply with confidence.

#### Scale your global organization with tax automation

- Automate tax capture out-of-the-box across 4 continents. With taxes included in every transaction, our end-to-end solution uses automation to increase accuracy and auditability.
- Expand your global coverage to ensure compliance with local tax requirements using the Sage Intacct flexible, no-code tax engine.
- Support your multi-entity organization by assigning default tax engines for each entity. Sage Intacct does the heavy lifting so you can have peace of mind, even as your organization grows.

Sage

## Accurately and efficiently report, file, and audit taxes

- Remove the administrative burden of auditing the tax implications of transactions, across every entity, with centralized reporting.
- Capture the tax effects of all transactions in reports, so you can confidently prepare your tax returns for self-submission, or in the format required by your accountant or agency to submit on your behalf.
- Define a global policy and tailor it for local needs, all in a single system, enabling you to see and monitor policies across all entities.

## Comply with confidence

- Streamline global compliance. The Sage Intacct Multi-tax engine enables you to easily monitor, maintain, and prove compliance across multiple tax jurisdictions. Get down to the details with the ability to drill down to the source data.
- Making Tax Digital Compliant. File directly with the HMRC and comply with the UK's Making Tax Digital initiative.

## Automatically capture VAT on transactions
